

Thermocouple Welding Unit

This easy to use, compact and light weight thermocouple welding unit is the optimum device for attaching thermocouples directly to the work piece by the capacitor discharge method to obtain a precise temperature measurement, which is essential.

Features:

- Variable Output
- Manual/Automatic Operation
- Portable Design
- Easy to use
- On-site proven reliability
- Built-in rechargeable power supply

Dimensions: 12" L x 4" W x 10.5" H

Weight: 4.5 kg
